Sounding Creek Council Meet

The first meeting of the new Council was held in the Municipal Office on Monday, March 7. There were present Councillors Cameron, Proctor, Coad, Farrow and Cowin.

J. A. Cameron was elected Reeve for ensuing year.

E. A. Proctor was elected Deputy Reeve for the ensuing six months.

Messrs. Cameron and Coad was on the Finance Committee for the year.

It was decided that the Board of Health include all the members of the Council.

J. A. Cameron was appointed delegate to the Hail Insurance Convention.

The matter of payment to W. H. Turner for gravel pit came up for discussion. The Council had previously offered to write of Mr. Turner's taxes on the quarter affected to the end of 1920. It was decided to adhere to this offer which they considered a generous one.

By successive resolutions it was decided to purchase gopher poison for distribution in accordance with the provisions of By-Law No. 19 for the season of 1921, but this year to purchase and distribute strychnine only. This poison will be purchased from H. E. Ramage and Chas. Wylie at the price of \$2.53 per ounce. There will also be a 15c. charge for distribution making \$2.68 in all. No credit will be allowed this year for the half that the rate-payer pay, but this must be paid in cash when the poison is taken out. Directions for mixing will be given out with each bottle. Every ratepayer should get these.

The following bills were passed for payment: The Plaiddealer, Financial Statement, etc., \$64.30; Joe Deman, 1919 Weed Account, \$18; L. M. Colpits salary and commission for Feb., \$144.20; Routine office expense, \$12.25; Stamps, \$25.00.

It was decided that the bills in the Garrison case should be published. They are as follows:

Miss E. Wickens, nursing	\$120
Mrs. Tansley	80
Mrs. Averil, hospital bill Clara Garrison	185
do do O Garrison	85
do Miss Wickens	305
Mrs. Featherstone, nursing	4
C. Sterling, Funeral Guarantee	225
Total	\$1,004

The Council adjourned to meet again Saturday, April 2, at 2 p.m.

Chinook Curlers Win Again

Youngstown Unable to Win Beaver Cup; Lost out by One Point

On Monday the Chinook curlers added another game to their season's honor when they defeated rinks from Youngstown skipped by Harper and Parsons for the Beaver Cup. There was a fair crowd present to watch the game which was one of the best played this season.

Harper was drawn against Dawson. All through this game the home rink were in the lead, and on the eleventh were two up. In the last end Harper managed to lay two which were well guarded and although Dawson had the last shot he was unable to move them, and the game resulted in a tie of 10-10.

Parsons, who was opposed to Miller, lost the first few ends but came back strong in the seventh end, and on the eleventh end the game stood 10-10. At this point the excitement was great. In coming home Parsons was laying three, when Miller, who had been making some fine shots all through the game, came to the rescue, and made a perfect shot taking a wick off his opponent's rock and leaving himself shot. Parsons was unable to get this rock out which decided the game for Chinook.

The Rinks

Chinook	Youngstown

After the games the visitors were entertained at supper at the Restaurant. The supper was followed by speeches and anecdotes of "the roarin' game." The feeling of good fellowship was strongly in evidence, and the Youngstown curlers will always be welcome visitors to our town.

Mrs. Meade, who has been visiting friends in Calgary, returned yesterday morning.

Remember the Concert and Box Social to be given in the Laughlin Schoolhouse to-night.

Mr. E. J. Bridgeman, eye specialist, of Saskatoon, will visit Chinook next Wednesday, March 23.

Mr. D. Bell made a business trip to Calgary last week.

Inaugural Ceremony at Washington Featured By Utmost Simplicity

Washington. — Warren Gamaliel Harding was inaugurated president of the United States with ceremonies almost as simple as those customarily attending the opening of a session of the Canadian Parliament at Ottawa. Had Mr. Harding's personal wishes been adhered to strictly, the ceremonies would have been more simple, but, the Congressional Inaugural Committee made some arrangements on its own account. These included a cavalry escort of four troops for the president in his ride from his hotel to the capitol and thence to the White House.

This little cavalcade contrasted strangely with the great military and civil processions which have attended inaugurations for half a century or more.

President Harding, in his inaugural address, declared that the United States "looks no part in directing the destinies of the Old World" and is unwilling to become "entangled in European politics." Nevertheless, speaking on behalf of the people of the United States, he expressed willingness to associate with the other nations of the world in seeking an agreement for the reduction of armament, in suggesting plans for mediation, conciliation and arbitration, in casting the line of international relationship and establishing a world court for the disposition of justifiable questions.

Today, better than ever, we know the aspirations of humankind, and share them, he declared.

The recorded progress of the United States, Mr. Harding said, proved the wisdom of the policy of non-involvement in old world affairs.

"Confident in our ability to work out our own destiny and jealously guarding our right to do so," he continued, "we seek no part in directing the destinies of the old world. We will accept no responsibility, except as our own conscience and judgment in each instance may determine."

"Our eyes never will be blind to a developing menace, our ears never deaf to the call of civilization. We recognize the new order in the world, with the closer contacts which progress has wrought. We sense the call of the human heart for fellowship, fraternity and co-operation. We crave friendship and harbor no hate. But America can be a party to no permanent military alliance. We will not enter into political commitments, nor assume any economic obligations or subject our decisions to any other than our own authority."

"I am sure our own people will not misunderstand nor will the world misconstrue. We have no thought to impede the paths to closer relationship. We wish to promote understanding. We want to do our part in making offensive warfare so hateful that governments and peoples who resort to it must prove the righteousness of their cause or stand as outlaws before the bar of civilization."

"We are ready to associate ourselves with the nations of the world, great or small, for conference, for counsel, to seek the expressed views of world opinion to recommend a way to approximate disarmament and leave the crushing burden of military and naval establishments. We elect to participate in suggesting plans for mediation, conciliation and arbitration, and would gladly join in that expressed conscience of peace which seeks to clarify and write the laws of international relationship, and establish a world court for the disposition of such justifiable questions as nations are agreed to submit thereto."

Big Salmon Run Thing of the Past. The run of sockeye salmon to the Fraser River this year will range itself definitely with the lean years, and the former big years of the run must be regarded wholly as a thing of the past, according to the conclusion reached by Dr. C. H. Gilbert, fisheries expert appointed by the government tabled in the legislature. Blockade of the Yale canyon in 1913 as a result of blasting operations, the report says, caused the catastrophe.

Using War Prisoners in Russia. Stockholm.—Advices received here state that the Communists are concentrating detaining camps of former German and Austrian war prisoners in Petrograd and Moscow to put down the trouble arising out of the Kronstadt revolt.

Co-Operative Marketing

A Wheat Pool For This Year's Crop Is Hardly Likely.

Calgary.—It is now apparent that there will be no attempt to bring into existence the co-operative wheat pool for the handling of this year's crop. This is the conclusion that has been reached by officials of the United Farmers of Alberta and the United Grain Growers, in view of the fact that it is evidently not the intention of the special committee that was appointed to ask for a charter at the present session of the Manitoba Legislature.

When seen by a representative of the Canadian Press, both H. W. Wood, president of the first-mentioned organization, and E. S. McKerr, general manager of the Western Division of the U.G.G., stated that they had not been informed definitely that the application for this charter this session would be made. They were therefore inclined to the belief that no such application will be made at the present sitting of the Manitoba Legislature.

Dresses Made of Varnish

Cannot Be Spoiled By Water And Are Fireproof.

"Soon women will be able to dress themselves entirely in varnish—and with perfect propriety! The varnish is opaque and becomes clear as glass if rolled into thin film; but it is still varnish, for all that. This new dress material, in its liquid days, was called 'dope,' and was used to protect aeroplane wings from fire and water. Now it is being spun and woven for women's dresses. The only difference between a film of dope, a sheet of this magical varnish, and a piece of silk is that the first is laid on with a brush, the second pressed out on a plate, and the third forced through a tiny hole. This material can be used for practically any article of wearing apparel. The articles so made cannot be spoiled by water, and are also completely fireproof. Dyes of all shades are readily absorbed and retained, and the material washes beautifully."

Explains the Whole Thing

Sir Frederick Stupart tells us what has caused the mild weather. Canada's comparatively mild climate this winter has been due to the Kuroshio of Japan, a current which affects the climate of the Dominion, Sir Frederick Stupart, director of meteorological office and observatory, Toronto, told an audience at Trinity College, in an address on "Weather and Weather Changes." Sir Frederick said that when the current in question was warmer than usual it set up disturbances of the atmosphere in the north which changed the course of the winds. Sir Frederick said rain could not be produced by artificial means. The idea that the moon influenced the weather was a fallacy, he said, also the idea that birds or beasts could tell by instinct the kind of weather that was coming. Sir Frederick said he had little confidence in the Indians forecast of the weather.

Mucilage On Postage Stamps.

The mucilage on the back of a postage stamp is made from the syrup of sweet potatoes. The liquid is forced through pipes leading to a series of machines consisting of rollers, between which sheets of stamps are fed one at a time. The liquid falls in a spray upon the rollers. The sheet, with its wet coating of mucilage, passes from the rollers into a fire filled with hot air. When it comes out at the other end of the fire the mucilage is dry.

President Wilson Grows Factious.

The best "inside story" in Washington is one of President Wilson's pettiness. Recently the president listened patiently to a man who impressed him as having little intellectual depth. "That man," said the president, "is a simple bungalow." He has no upper story whatever.

"Doing Your Bit" In Peace.

The need of the world is production—production needs workers. The man who is "doing his job" is "doing his bit." The chap who poses as a don't-worker is merely a "conscientious" objector without the moral courage to starve.—London Daily Express.

First Shot in War

Australia Claims Honor For Firing First British Shot.

Who fired the first British shot in the war? At another celebration of Australia Day—a special service held for the eleventh year in succession in the old City Church of St. Dunstan-in-the-East—the preacher, Dr. Lowther-Clarke, claimed the honor for Australia. A few minutes after war had been declared at midnight here—that was at 10 a.m. in Melbourne—a telegram was sent to the fort at Queensferry to stop a German merchant ship which had just cleared, and as the vessel was passing down the bay a challenging shot from the fort caused the pilot to stop her. Dr. Lowther-Clarke lately resigned the Archbishopric of Melbourne, after having spent 18 years in Australia.—London Chronicle.

Radium Never Wears Out

Once Obtained From Ore It Is Practically Indestructible.

The word radium, to the average lay mind, has heretofore conveyed only the vaguest of meanings, the general conception being that it is a strange substance, derived from ore by some mysterious means; that it has some magic powers; that it has been used by medical science to fight cancer; that diminutive quantities of it are used in radiotelegraphs; that it is a substance almost impossible to secure and that the world's supply is exceedingly small.

In the main this conception is correct, but only partly so. There is nothing mysterious about the process of obtaining radium, and while the present supply of the world is small, the fields of production have scarcely been touched.

What is not generally known is that once obtained from the ore radium is practically indestructible and its radioactive qualities do not cease quickly, so that each bit of metal obtained simply adds to the world's permanent supply.

For curative purposes the same radium can be used times without number. In expending power it does not lose power except at the rate of about one twenty-fifth of 1 per cent. a year, which means that the metal would lose only half of its potency in 1,500 years.

Eye Test for Cattle

Furnishes An Additional Safeguard For Detection of Tuberculosis.

The eye test for detecting tuberculosis in cattle has the approval of the scientists of the Bureau of Animal Industry, United States Department of Agriculture. The ophthalmic or eye test is used as a check upon the other methods, as it happens occasionally that an animal that will not react to the subcutaneous injection or intradermal test will react to the eye test.

Two tuberculin tablets are placed in the conjunctival sac beneath the lower lid of the left eye, and observations are taken at approximately the third hour following and at frequent intervals up to 24 hours. Reaction to the test is indicated by discharge and swelling.

The Bureau of Animal Industry is not prepared to accept the evidence of the eye test alone where cattle are intended for interstate shipment. The test, however, furnishes an additional safeguard when used with the older method.

The eye test is not so well adapted for use upon range cattle or cattle in transit, because of the possibility of dust setting up an irritation not related to tuberculosis. It has its best use on the dairy farm, where conditions are such as to give sure results.

The experts have observed that in herds which are frequently tested by the subcutaneous method it is advisable to apply the intradermal and the eye test. The combined tests sometimes detect reactors which have escaped detection by other means.

Had It All Figured Out.

One of the census men called at the home of a working man in New York—noted in his neighborhood as a great reader and a wiseacre on statistics. He found the man poring over an encyclopaedia.

"How many children have you?" asked the census taker.

"I have just three—and that is all I'm gon't have, too. Do you know that? According to this book here," he looked up with a wild eye stare, "every fourth child born into this world is a Chinaman."

Prohibition of divorce is far more needed in the United States than the Volstead Act in the opinion of Rev. J. E. Corrigan, a professor at Boston College.

Sales at the winter auction of the International Fur Exchange, St. Louis, have passed the million mark for the fourth consecutive time.

Grain Handling Facilities

Capacity of Private Elevators at Port Arthur Is Now 4,800,000 Bushels.

Development of grain handling facilities at the head of the Great Lakes has been such that while the capacity of private elevators at Port Arthur, Ontario, a year ago was 750,000 bushels, it now 4,800,000-bushels. During 1920 the Port Arthur Ship-building Company, Limited, completed and delivered two of the largest ocean freighters ever built by the company; they were 320 feet long and 9,200 tonnage; in 1921, two vessels, an ocean freighter of 4,000 tons and a lake steamer of 3,000 tons will be completed.

Railways May Use Fast Time

Canadian Railway Association Considering Use of Daylight Saving Plan.

Canadian railroads will probably operate on daylight saving time from May 2nd to October 2nd, according to an announcement by the Railway Association of Canada.

In the interests of the travelling public, the association is appealing to the various Canadian municipalities to adopt this year uniform dates on which to begin and terminate the daylight saving plan.

Much unnecessary confusion has been caused to travellers during the past few summers by municipalities adopting "daylight saving" time and reverting to "standard" time, upon conflicting dates.

The spring general change of time on the Canadian railways will probably take effect on Sunday, May 1st, and the fall general change on Sunday, October 2nd. The Railway Association of Canada, acting for all the railways of the Dominion, suggests that if municipalities decide to adopt "daylight saving" time this year, they should make it effective from Sunday, May 1st, and revert to "standard" time on Sunday, October 2nd.

This would not only be of material help to travellers by avoiding some of the past confusion resulting from the conflicting dates, but business people generally would have a better understanding as to when the busiest day occurred and closed in other communities with which they are in constant communication.

A Timely Rebuke

A Lesson to Canadians Who Ignore Their Own Town.

Chief Justice Sir William Mulock administered a timely rebuke to the Crown authorities in Windsor when he declined to accept reservations that had been made for him in a Detroit hotel during the time that he would be in Windsor hearing the Spradlin case. In declining to do so, Chief Justice Sir William Mulock's laws he would not take up quarters in the United States, he read a lesson to a class of Canadians who are always too eager to ignore their own town and their own country and to turn their eyes and their money towards the larger towns and the more thickly populated districts on the other side of the border.—St. Thomas Times-Journal.

Only the Dog's.

The motorist mopped up another mile of dusty road, turned a corner, and came upon a delightful little inn. He promptly dismounted and called for a drink.

"Wait a minute and I'll get you another mug. That's Geraldine's," the boy told him.

"I don't mind," said the customer, and drained it off. "I'm proud to drink from Geraldine's mug. She's your sister, isn't she?"

"No," said the boy. "She's our dog!"—Ottawa Journal.

Simple Method.

"I do hope you'll be able to come to the mothers' welfare meeting on Wednesday," we were persuaded a Samson chief to come and give us a lecture on "The Deeds of Cookery." "Not to me, mum. I allus gives min'te to the pigs when it gets that far."—Punch.

Hutterite Brethren Successful Millers

The Hutterite Brethren, who inhabit a settlement at Standoff, Alta., are operating a grist mill with considerable success. A number of farmers in the vicinity, non-members of the sect, have taken their wheat to the mill and claim to have received benefits that justify them in giving the Hutterites their business in future.

Shoppers Organize.

Calgary.—Active steps are being taken here to form a provincial organization of milk and cream shippers. A provisional committee has been appointed, with N. S. Smith, of Olds, as chairman.

Reports of Spread Of Russian Revolution Have Been Confirmed

Sinn Feiners Kill

British General

Commanding Officer Killed in Clash With Five Hundred Armed Rebels.

Cork.—Brig-Gen. Cumming, commander of Kerry military area, was one of two officers killed in the ambush of a military convoy in Clonahin, this county, Saturday afternoon.

Gen. Cumming was president of the Court of Inquiry, appointed to investigate shooting of railway men in Mallow.

Belfast.—Brigadier-General Cumming, who was killed at Clonahin, Saturday, when a military convoy was ambushed, had his headquarters in the barracks at Buttevant, some miles to the northeast of the scene of ambush.

Recently Gen. Cumming had motored each morning to Mallow, where he presided over the Court of Inquiry into the murder there recently of Mrs. King, wife of County Inspector King, and the shooting of railwaymen after the murder.

Extraordinary precautions were taken on these trips. Parties of soldiers motored in advance, Gen. Cumming following in his own car with two soldiers sitting behind him.

An armored car with machine guns brought up the rear. Outside the court house during the proceedings, at the hotel where the general ate lunch, and in the streets traversed by him between the court house and the hotel, large detachments stood guard.

Two previous attempts had been made to ambush Gen. Cumming. A heavy fire was opened on the convoy yesterday from the high ground on both sides of the road. The driver of the first car was seriously wounded by the first volley, and the car plunged into a ditch. All the soldiers left the cars and went into action, but the armored car, in endeavoring to pass that of Gen. Cumming, ran into the ditch. Gen. Cumming was hit on the head shortly after leaving the car, and died instantly. The firing continued an hour, during which a lieutenant also was killed.

Mineral Farming

Marine Plants Take Up Iodine and Potash From Sea Water.

Sea water contains 4 cents worth of gold to the ton, and, in quantity, twice as much silver. Copper and other metals likewise contribute their salt to the ocean in appreciable amounts—\$4, indeed, might be expected, inasmuch as rivers carry down to the sea all the materials of which the rocks of the land are composed, including the metals contained in them. It is familiarly known that certain marine plants—the kelps and other seaweeds—take up iodine and potash from the sea water, concentrating those minerals in their own structure. Such plants are important commercial sources of potash and iodine. In Spain a plant which secretes soda was long cultivated and harvested for that chemical, the salt derived from the burning of it being called "barilla." Thus it would seem that the notion of a mineral farm is not altogether an absurdity.

Boy of Eighteen Gets Action

Midshipman J. L. Storey Bore a Charmed Life.

Midshipman J. L. Storey, a boy of perhaps eighteen, the sole surviving officer of the Queen Mary, reported to his C.O. on the loss of his ship. That midshipman, by the way, bore a charmed life. At Jutland he was picked up successfully after sinking twice. He was with Crockade at the battle of Coronel, escaping in the Glasgow after the flagship and the Monmouth had been sunk with not a man saved; with Sturdee in the battle of the Falklands, and in many engagements in the Dardanelles. And, after all, he was the sole surviving officer of one of our largest ships.—London Saturday Review.

Forest Products of British Columbia.

Pulp and paper products sold by British Columbia mills during 1920 amounted to \$21,000,000. The total value of the forest products of the province was \$92,688,807 in 1920, being \$20,000,000 more than the value in 1909. The value for 1920 is given as \$92,688,807 and is twice the production of three years ago. Pulp and paper increased in value from \$12,000,000 to \$21,000,000 during the year.

A New Metal

Canadian Company Said to Have Discovered New Alloy of Great Value.

A metal lighter than any yet known and as strong or stronger than steel, has for years been the dream of many, and every now and then rumors are circulated to the effect that at last it has been discovered. The latest report to be circulated relates to a new magnesium alloy, said to have been discovered by a metal company of Montreal. The new alloy, it is stated, is only two-thirds the weight of aluminum, and is "as strong as steel." It is said to be especially suitable for pistons and connecting rods of aero and motor car engines, where strength and lightness are desirable.

Forest Products of British Columbia.

Natural Query.

A woman's journal wants to know why men should have anything to say about what women should wear when it took them 300 years to find that they could sew buttons all the way down the front of their shirts and put them on like a coat instead of pulling them over their heads.—Vancouver Province.

Reports of Spread Of Russian Revolution Have Been Confirmed

London.—Confirmation of reports that Russian revolutionaries have taken possession of Kronstadt, the fortress and garrison at the head of the Gulf of Finland, near Petrograd, is given in the most recent advices received in Copenhagen by way of Helsinki, says the Copenhagen correspondent of the Exchange Telegraph.

The revolutionaries have made Kronstadt the centre of the organization, the correspondent asserts.

The rebels have trained the guns of the fortress Petropavlovsk, on Petrograd, the correspondent continues, and have sent the torch-bearer, Jermak, to Oranienbaum (on the Gulf of Finland), opposite Kronstadt.

The Soviet authorities have suspended the Petrograd-Oranienbaum rail services.

"The revolting sailors sent delegates to Petrograd, but it is not certain whether they were to negotiate with the Soviet officials or to confer with the fellow revolutionists."

"Moscow reports say that the Bolsheviks overpowered the rebels there with the most anguishing terrorism."

Paris.—The former Russian premier, Alexander Kerensky, has received a dispatch from well informed members of his party fully confirming the accounts already published of the revolt in Petrograd, where, according to a brief late dispatch from Helsinki, the movement tends to spread and grow stronger.

As regards Moscow, Mr. Kerensky says, the counter-movement appears somewhat weak, but in the regions near the frontiers, the Communists are panic-stricken. The commissaries are fleeing and troops of doubtful loyalty are being disarmed.

Dairying in Saskatchewan

Has Become a Permanent and Extensive Industry.

The success of the butter-making of Saskatchewan is a reminder of the gratifying fact that the Canadian west is ceasing to depend wholly on grain growing. That may still be the leading branch of industry, but it is not the only one. Mixed farming is coming in, and in mixed farming dairying is coming to the front. "Dairying," says a government publication, "has been established as an extensive and permanent industry, and is proving one of the greatest boons to the province," writing especially of Saskatchewan.

"Butter is now being shipped from Saskatchewan to Vancouver, Toronto and Montreal. Many private and co-operative creameries are to be found throughout the province, and their number is continually being added to. In 1918 there were produced in Saskatchewan, 3,154,566 pounds of butter, 2,301,250 pounds being produced in co-operative creameries. Since then the output has been considerably increased."

A New Metal

Canadian Company Said to Have Discovered New Alloy of Great Value.

A metal lighter than any yet known and as strong or stronger than steel, has for years been the dream of many, and every now and then rumors are circulated to the effect that at last it has been discovered. The latest report to be circulated relates to a new magnesium alloy, said to have been discovered by a metal company of Montreal. Man Needs But Little.

A mattress concerns advertisers that we spend one-third of our life in bed, while a shoemaker boasts that we put in two-thirds of our time in our shoes. We gather from this that all a man needs to get through life reasonably comfortable is a bed and a pair of boots.

To Remove Bad Cold

MEDICINE NOT NECESSARY

The Balsamic Vapor of "Catarrhose" When Inhaled Quickly Disappears.

Every breath you draw through Catarrhose Inhaler fills the whole breathing apparatus with pure piney essences that stop colds at their very beginning. You experience a pleasant sensation of relief at once. Soreness, congestion and irritation leave the nose and throat, the head is cleared, and every trace of cold and Catarrh disappears. Catarrhose is so sure, so pleasant, such a safe remedy for winter ills that you can't afford to do without it. Get the dollar outfit, it lasts two months, small size 50c, trial size 25c, at all dealers or the Catarrhose Co., Montreal.

Canada's Maple Products

Value of the Yearly Manufacture is \$2,000,000.

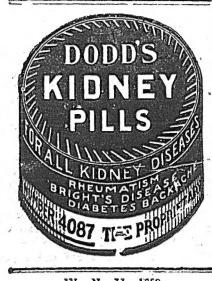

The manufacture of sugar and syrup from the sap of the sugar maple is an important part of the industry in the eastern provinces of Canada, and particularly in Quebec. Long before the white man settled the country, maple syrup was known to the aborigines and apart from wild honey was the only intensely sweet product at their command. The methods of procuring it were naturally of a very crude description. Modern methods have greatly improved the product and have led to an ever increasing demand. Quebec province is the centre of the industry. Of the 20,000,000 pounds, or thereabouts, produced annually in Canada, more than two-thirds have to be credited to Quebec. Ontario is officially reported to be responsible for five million pounds, and the Maritime Provinces for half a million pounds only. The other provinces of Canada do not figure in the calculations. These facts are gathered from a timely pamphlet just issued by the Department of Agriculture at Ottawa, of which J. B. Spencer, Director of Publicity, is the author. From this well illustrated and technically detailed publication it is also learned that the production of maple sugar, and its equivalent in syrups, of late years has shown a tendency to decrease. From 1851 to 1861 were the total average yearly production was about 13,500,000 pounds, from 1861 to 1871 about 17,500,000 pounds, from 1871 to 1881, 19,000,000 pounds and from 1881 to 1891, 22,500,000 pounds. The latter was the pinnacle of annual production, for in the next decade the average per year was 21,200,000 pounds, and in later years the average has been little less than 20,000,000 pounds. It is thought that perhaps with the increase in price that has taken place recent greater production may be looked for. It is estimated that the value of the yearly manufacture of sugar and syrup is \$2,000,000, and that 50,000 people are employed in the industry at the height of the season, which is of very short duration, extending over only five or six weeks at the most. Stringent laws against the adulteration of the product have been passed, especially in Quebec, where schools of instruction have been established and the Pure Maple Sugar and Syrup Co-operative Agricultural Association has been organized.

Manitoba Egg

Laying Contest

Gladstone Wyandottes Hold A Lead In Contest at Brandon.

At the end of the seventeenth week in the egg-laying contest at the experimental farm, Brandon, a pen of White Wyandottes, owned by Mrs. A. S. Hart, of Gladstone, is in the lead with a total of 471 eggs. On Feb. 27 a pen of S. C. White Leghorns, owned by Arthur Rowell, of Brandon, secured 100 percent. Experimental farm pens have also been entered in the contest, but their performances are not being counted in the Manitoba competition. One pen from the experimental farm has laid 567 eggs in the 17 weeks.

Chilled Meat for Europe

United Farmers of Alberta Have Plan to Supply Canadian Meat to Old Country.

A far-reaching scheme in connection with the cattle industry of Western Canada, having for its object the shipment of Canadian meat to Europe in a chilled state is being considered by the executive of the United Farmers of Alberta. Very diligent enquiry has been made into the proposition by a committee of the Farmers' Association and the conclusion arrived at is that the scheme is quite practicable.

The scheme entails the establishment of killing and chilling stations, and a fast system of transportation in specially constructed cars, such as those used by Swifts and others on the other side of the line. In addition it would necessitate proper storage facilities in Great Britain in order that the meat might be placed on the market in a proper condition, and when required. At the present time, the western farmer is somewhat handicapped by there being no steady market for production. A stockman might strike the market with a carload of indifferent cattle, that was only half finished, and get 8c for it; while the following day another man, with high grade animals, might only receive 7½c for them. Such conditions as these are, of course, unsatisfactory and could undoubtedly be largely overcome by a scheme such as the one proposed.

Prepared to Compromise

Government is Ready to Meet Labor On New Legislation.

While a definite announcement has not yet been made respecting the action of the government on the legislative program of the Dominion Trades and Labor Congress, it is expected that a statement, outlining what the government is prepared to do will be made public soon.

The Dominion Trades and Labor Congress asked for ratification of the eight-hour day, repeal of the law making it possible to deport non-Canadian British subjects and the inception of a permanent unemployment insurance.

It is stated the government is prepared to meet these requests more than half way and a comprehensive statement which may be brought down as legislation will be made.

Present Chair to Canada

British Parliamentary Speaker Hopes to Visit Canada in May.

The Canadian Associated Press has been told that it is understood that the Right Hon. Jas. W. Lowther, speaker of the British House of Commons, hopes to proceed to Canada about the middle of May to present the new chair which has been given to the Canadian people by members of the United Kingdom Branch of the Empire Parliamentary Association. The chair is now on view at Westminster. It is a replica of the speaker's chair in the British House. This is the third gift of a similar kind which has been sent from England to Ottawa. The Lords and Commons made a joint gift of a new black rod and Sir Charles Wakefield, when Lord Mayor of London, and his sheriffs, Sir George Touch and Sir Samuel Head, gave a new mace.

Challenge to the White Race

The White Man is Hopelessly Weak If Numbers Alone Are Considered.

The white man holds practically the title to the world. That title is good because he was industrially and, above all, pugnaciously able to make it good. The moment he is not able to do that the title to the rest of the world is not only lapses, but his own hold on his original regions is threatened. He is hopelessly weak if numbers alone are considered. Heretofore he has made his title good by having certain tremendous advantages largely of his own making, on his side. Those advantages are now being made a part of the strength of the new Orient—Los Angeles Times.

The Michigan Agricultural College has planned a system of wireless telephones which will receive messages on farms at a distance from the city, thus keeping the farmers informed of market prices and weather forecasts, and also enabling them to listen to lectures or music.

Sure of Applause.

You always get the hearty applause of at least one person when you please yourself.

Poor relations are almost as easy to accumulate as empty tomato cans.

London has 5,716 taxicabs and 3,316 omnibuses.

The Devastating Hun

Lloyd George's Catalogue of the Damage Done by Germany in Northern France.

In his recent speech in reply to the German proposals, Premier Lloyd George summarized the damage done by the Germans in Northern France as follows:

Houses destroyed	319,269
Houses partly destroyed	213,675
Factories destroyed (metalurgical, electrical, mechanical)	21,000
Textile factories destroyed	4,000
Factories destroyed (metalurgical, electrical, mechanical)	4,000
Towns destroyed	1,659
Townships three quarters destroyed	707
Townships half destroyed	1,656
Railways destroyed, kilometres	3,000
Bridges destroyed	5,000
Highways destroyed, kilometres	52,000
Land devastated (about one-half cultivated), acres	9,386,000
Mines in Northern France, years required to repair	10
Reduced production of these mines annually, tons	21,000,000

The Calgary Spring Shows

Largest Annual Auction Sales of Pure Bred Bulls on the Continent.

The spring bull sale to be held at Calgary, Alberta, at the beginning of April, will again be a big event. During the last few years it has developed into one of the largest annual auction sales of pure bred bulls on the American continent, and is attended by cattle breeders from all parts of the country. Only bulls that have passed the tuberculin test will be offered at this sale—an innovation in association auction sales that will add greatly to the confidence buyers have in the Calgary bull sale.

In conjunction with the bull sale the Alberta spring horse show will be held at Calgary, for which an exceptionally fine list of horses have been entered.

Is Nearing Completion

Bienfait Briquette Plant to be Ready in June.

In the Ottawa House, Hon. Dr. Tolmie informed Dr. W. D. Cowan, Regina, that the briquetting plant at Bienfait, Sask., would be completed about June 1921. By the latest estimate a total expenditure of \$339,578 was involved in the construction of the plant. Half of this amount is to be paid by the Federal Government and the other half in equal parts by the provinces of Manitoba and Saskatchewan.

PALPITATION OF THE HEART

Many people are kept in a state of morbid fear of death, become weak, worn and miserable, and are unable to attend to their household, social or business duties through this unnatural action of the heart.

To all such sufferers Milburn's Heart and Nerve Pills will give prompt and permanent relief. Mrs. F. A. Gauthier, Tilbury, Ont., writes: "During 25 years past I have greatly troubled with palpitation of the heart, and sometimes so much so that those around me thought I would die at any moment, being so completely weakened by the sharpness of the palpitation which would last sometimes up to 10 hours. I had the doctor who kept me taking his medicine to overcome the disease, but to no effect. There was no change at all for the better. Two years ago a friend advised me to use Milburn's Heart and Nerve Pills. I began to use them at once, and at the second box I began to feel some relief, so I continued to use them according to directions and now I am perfectly well. Before using the pills I ever weighed 100 lbs., now I weigh 117, and feel as if I were young, although I am over 66 years of age."

Price 50c a box at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

The tin fields of New South Wales had yielded over worth more than \$56,000,000 to the close of last year, which set a new record for production.

Cinnamon is a species of laurel.

A Health Saving REMINDER:

Don't wait until you get sick—USE

Don't Ask a Woman—

with any experience of Zano-Buk healing, to ever ask an ordinary citizen to advise. Zano-Buk is the purest and most wonderful healing substance in the world. Apply Zano-Buk to any cut, burn, scald or other injury and its astonishing how it dispels pain and grows new skin. Use Zano-Buk for an obstinate skin trouble like eczema, salt rheum, ringworm or ulceration and you will find that its refined herbal essences quickly penetrate to the root of the trouble. Zano-Buk simply drives poison and germ disease right out of the tissues.

Besides its great soothing, healing and antiseptic powers, Zano-Buk is unique in that it is wholly composed of rare herbal oils and essences. Where Zano-Buk is all medicine, coarse salves and ointments are counterproductive about 80% animal fat. Once try the pure herbal Zano-Buk and you will never be without it again. 80c. all dealers. Free sample box from Zano-Buk Co., Toronto, for 1c stamp.

Seasonable Salads

BY LORETTO C. LYNCH
An Acknowledged Expert in All Matters Pertaining to Household Management.

In the summer time, when lettuce and tomatoes are rather plentiful and, therefore, fairly cheap, we find them on the average menu frequently. But in the winter some housewives forget that there is such a thing as salads.

Out in California they serve a fine potato salad. The hot, boiled potatoes—boiled just right at a bubble rather than a boil—are cut into half-inch cubes. Sufficient mayonnaise to well moisten is added. The potatoes, being hot, drink in the mayonnaise and acquire better flavor than when spread over cold ones.

An equal quantity of diced table pepper is added and additional white pepper and salt. The salad is arranged on leaves of lettuce on a pretty dish, and finely chopped hard-boiled egg sprinkled over the top. Stars cut from canned pimientos are placed in the center of each portion.

This salad is nourishing as well as attractive, and, together with cold sliced ham and hot tea biscuits, makes a fine supper.

In winter most everyone gets cabbage. There are any number of devices on the market for shredding cabbage. And shredded cabbage salad is delicious when well made. Shred two cups of cabbage, pour cold water over and let stand an hour or more. Drain and dry in cheesecloth to remove as much water as possible. Add an equal amount of cut celery cubes. Moisten with cream dressing.

Since several readers have asked for Cream Dressing, the recipe follows: In the top of a double boiler mix together one level teaspoonful each of dry mustard and salt and two level teaspoons of flour, one and one-half teaspoons of powdered sugar, and a few grains of cayenne. Add one teaspoon of melted butter and the yolk of an egg.

When well mixed, pour over very slowly one-third of a measuring cup of vinegar. Cook over boiling water, stirring constantly until mixture thickens. Cool. Beat until stiff one-half a cup of thick cream, and to the cream slowly add the other mixture.

Another recipe for cabbage salad combines shredded cabbage soaked and dried with half as much finely chopped pimientos and a little green pepper. A little finely chopped white onion may be added. The dressing is made by beating together nine tablespoons of oil with three tablespoons of vinegar. Any desired seasonings may be added, such as salt, paprika, dry mustard, celery seed.

Macedoine salad is very colorful and affords a pretty way of using up those few spoonfuls of vegetables left from yesterday's meal. If these are peas, rinse off the butter or other dressing by pouring boiling water over the peas or other vegetable in a strainer. Beets, carrots, potatoes, cut into small cubes, may be combined with peas to form a palatable combination.

Moisten with nine tablespoons of oil beaten together with three tablespoons of vinegar. Seasonings may be added. Arrange a little pile of peas, then a little pile of beets, and so on, on the lettuce leaves or the vegetables may be mixed together. Chill all salads before serving.

Stuffed egg salad may form the principal dish at a luncheon or supper, or it may be served when the meat or fish course is a bit scanty. Hard-cook eggs, peel them, and when cold, cut them in half lengthwise. Carefully scoop out the yolks. Mash them.

Put every four yolks mix together

one-eighth level teaspoon of dry mustard, the same quantity of salt and a tablespoon of melted butter or oil. Mix with the egg yolks. Carefully pack the yolks back into the whites. Sprinkle with paprika. In the winter, when the lettuce is expensive, the ragged outside leaves may be utilized. Trim off any decayed part and then roll the leaf tightly as we do a piece of paper when we want to use it for a lighter instead of a match.

With a sharp knife cut slices from the jelly roll cake. The result will be little green curlicues which may be used as a garnish or as a bedding for salads.

Called His Bluff.

Husband.—What a glorious day! I could do anything, face anything on a day like this!

Wife.—Come on down to the miller's!

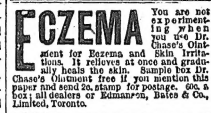

Sure Protection For You While You Travel

You may find the water bad, some poorly cooked food may excite trouble, a draught from a car window may give you an ache or pain—a cold room or damp sheets may cause rheumatic twinges. Remember this—any pain that is caused by congestion yields rapidly to Nerviline. When your stomach is sour and upset, just try the magical effect of twenty drops of Nerviline in sweetened water. If cramps wake you in the dead of night, Nerviline will fix those awful cramps in a hurry. Keep a 35 cent bottle of Nerviline in hand always.

The Search for Oil

Another Oil Well Being Sunk in Monitor Field.

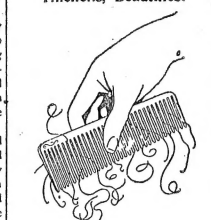

L. C. Robertson, managing director of the Mud Butte Oilfields, Ltd., announces the signing of a contract for the drilling for oil in the Monitor field in Central Alberta. The site picked for operations is a few miles south of Monitor, between the present sites of the wells being drilled by the West Region of Scotland, the Imperial Oil Company, and the Talpex Oil Company, Limited. The equipment for this well is now in transit to the town of Monitor, and unless something unforeseen happens, this well should be "spudded in" in about thirty days. The Mud Butte Oilfields, Limited, are said to own extensive holdings in the Monitor and Czar fields, and have decided to make a thorough search for oil here.

MONEY ORDERS
"Be sure way to send money by mail is by Dominion Express Money Order."

DANDERINE

Stops Hair Coming Out; Thickens, Beautifies.

A few cents buys "Danderine." After a few applications you cannot get a fallen hair or any dandruff, beard's every hair shows new life, vigor, brightness, more color and abundance.

ASPIRIN

"Bayer" is only Genuine

Warning! It's criminal to take a chance on any substitute for genuine "Bayer" Tablets of Aspirin. Prescribed by physicians for twenty-one years and proved safe by millions. Unless you see the name "Bayer" on package or on tablet you are not getting Aspirin at all. In every Bayer package are directions for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago and for Pain. Handy tin boxes of twelve tablets. Drugists. Drugists. Drugists. Also sell larger packages. Made in Canada. Aspirin is the trade mark (registered in Canada), of Bayer Manufacturers of Monacetteside of Salford, England.

Stop that pain!

Quick, warming, soothing, comforting relief follows an application of Sloan's Liniment. Just slip it on the strained, overworked muscle. Good for rheumatism, too. Flexibility without rubbing. (Made in Canada)

Shortborn to the Fore.

Ninety per cent. of the milk and cream supplied to the city trade in Alberta, and nine per cent. of the raw material for the cheese and butter, are produced by milking short-horns, according to a statement made by the Hon. Duncan Marshall, Minister of Agriculture for Alberta.

A garden slug has been known to travel six feet three inches in an hour.

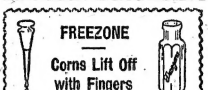

A Kidney Remedy

Kidney troubles are frequently caused by badly digested food which overtaxes these organs to eliminate the irritant acids formed. Help your stomach to properly digest the food by taking 15 to 30 drops of Extract of Roots, sold as Mother Seeger's Kidney Syrup, and your kidney disorder will promptly disappear. Get the genuine.

"Cascarets" To-Night

For Constipation

Just think! A pleasant, harmless Cascarets works while you sleep and has your liver active, head clear, stomach sweet and bowels moving regularly as a clock by morning. No griping or inconvenience. 10, 25 or 50 cent boxes. Children love this candy cathartic too.

Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. It doesn't hurt a bit.

Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without a particle of pain.

Women! Use Diamond Dyes

Dye Old Skirts, Dresses, Waists, Coats, Stockings, Aprons. Each package of "Diamond Dyes" contains easy directions for dyeing any article of wool, silk, cotton, linen, or mixed goods. Bleared spots, faded streaks, spots, fades, and runs material by giving it a "dye-kick." Buy "Diamond Dyes" only. Druggist has Color Card.

MOTHER!

"California Syrup of Figs" Child's Best Laxative

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmless physic for the little stomach, liver and bowels. Children's fruit. Full directions on each bottle. You must say "California."

ROYAL YEAST

is now made in square cakes. The number of cakes in a package has been reduced from six to five, but the five square cakes are equal in quantity to the six round cakes.

Each cake is wrapped in wax paper, insuring perfect keeping qualities.

Royal Yeast Cakes—make perfect bread.

MADE IN CANADA

World Happenings Briefly Told

Members of the Toronto City Council have voted themselves big increases in salaries.

M. H. Noker, inventor of the famous 150 mm. gun used by the French army, has arrived in Montreal.

Preparations are in progress for the erection of a chain of military block houses to indicate the boundary of the new Ulster area in Ireland under the Home Rule Act.

The British Columbia Telephone Company has filed application for increases in exchange rentals and telephone charges amounting to \$397,000 per annum.

"Producer to Consumer" is the slogan of the United Farmers of Ontario. Their latest venture will be in the form of a cafeteria in Toronto, likely near the head offices of the organization.

The cabinet is considering the extension of the regulation of the Department of Immigration and Colonization which provides that an immigrant must have at least \$250 at the time of entering Canada.

Trade and commerce is being strangled in Canada through the increased freight rates put in effect some months ago by the Board of Railway Commissioners according to Sir Douglas Cameron, of Vancouver.

To him that hath shall be given

Was the Biblical version of our modern saying? "Nothing succeeds like success." So it was with Dr. Pierce's, of Buffalo, N. Y., who, over 50 years ago, gave to the world a Prescription which has never been equalled as a tonic for the weakness of women. Many women in every hamlet, town or city will gladly testify that Dr. Pierce's Favorite Prescription did them a world of good. Ask your neighbor.

Another of this great physician's successful remedies is known as Dr. Pierce's Golden Medical Discovery and, like the "Prescription," is now sold by druggists everywhere, in both liquid and tablet form. This medicine was a success from the start, for the list of men and women all over the universe who have successfully used it for indigestion and as a blood tonic and system builder, makes an amazing total of thousands.

The Long-Waisted Frock is Smart

By Gertrude Beresford.

Many of the most delectable frocks for the new season show that the location of the waistline is far below what is known as the natural waistline. However, dresses cut on such lines are exceedingly charming, especially among the youthful members of the fair sex. White Swiss enriched with blue dots is chosen for the development of this attractive frock. It has very short sleeves, but should its wearer elect to do so she may cover her arms with bangles. The skirt is designed with two deep flounces, which are bordered with Canton crepe in matching shade. The ash is of blue and silver ribbon.

Germans Lose Largest Liner

Largest Steamer Afloat Is Shortly to Be Handed Over to Allies.

The German steamship Tirpitz, one of the masterpieces of German shipbuilding, and at present the largest steamer afloat, is now completed and is shortly to be handed over to the Allies.

She was originally intended for the Panama Canal route, and was constructed to carry 2,000 passengers in the Hamburg-America line's westward service to China. As in the case of the Vaterland, the Tirpitz was fitted out in the most elaborate manner. For her saloon passengers there is a marble swimming bath, said to be the largest afloat. The Tirpitz was laid up during the war and suffered some damage, but this has now been repaired. She is to undergo her trials at Swinemunde in the course of a few days, and will then, after a short voyage, be handed over to her new owners—London Times.

As a vermicide an excellent preparation is Mother Gresh's Worm Extirminator. It has saved the lives of countless children.

A Bear at Home. "Harry," she said thoughtfully. "What is it?" responded the worried businessman, rather shortly. "I wish you could re-arrange your business a little bit." "How?" "So as to be a bear on the stock exchange instead of at home."

Wash Day and Backache

WASH day is the least welcome day of the week in most homes, though sweeping day is not much better. Both days are most trying on the back.

The strain of washing, ironing and sweeping frequently deranges the kidneys. The system is poisoned and backaches, rheumatism, pains in the limbs result.

Kidney action must be aroused—the liver awakened to action and the bowels regulated by such treatment as Dr. Chase's Kidney-Liver Pills. This favorite prescription of the well-known Receipt Book author will not fail you in the hour of need.

One pill a day, after a box at all dealers, of Dr. Chase's Kidney-Liver Pills.

Dr. Chase's Kidney-Liver Pills

W. N. U. 1359

Do You Feel Like This When You Waken?

Do you feel blue, sickly, heavy, tired to get up? If so, it's probably your liver which is slow and needs to be toned and stimulated by Dr. Hamilton's Pills. It's a wonderful change Dr. Hamilton's Pills will make in a few days. They relieve the system of poisonous wastes, they aid the stomach, improve digestion, increase your appetite. You'll feel like new all over after using this health bringing medicine. Thousands have proved it. Sold everywhere in 25c boxes, or The Cattle Embargo Co., Montreal.

The Insult. A man from the backwoods visited New York for the first time and went into a restaurant to have his dinner. All went well until the waiter brought him a napkin. The eyes of the backwoodsman flamed, and, pulling a six-shooter from his hip pocket, he told that waiter his mind. "You take that blamed thing away at once," he said, evenly. "I reckon I know what to use a handkerchief without having them darned hints thrown out."

Miller's Worm Powders work so effectively that no traces of worms can be found. The pests pass away with the stools without being perceptible. They make an entire and clean sweep of the intestines, and nothing in the shape of a worm can find lodgment there when these powders are in operation. Nothing could be more thorough or desirable than their action.

Airplane Beat Cable and Telephone

Carried Message From London to Paris at High Speed.

In his interesting book on "Aerial Transport," published by Hodder and Stoughton, G. Holt Thomas recounts an incident in the history of the London-Paris air route which throws some light on the speed of European telephone service. "It was found necessary," he writes, "in the operation of this route, to get through a very urgent message from London to Paris, and a telephone call was put through and a cable was sent, and at the same time one of our pilots, flying a high-speed Airco machine, started off from Hounslow to take through the message, in the form of a despatch, to Le Bourget. He made the flight in the astonishingly short time of one hour and twenty minutes, beating both telephone and cable. His speed worked out, in fact, at the very remarkable figure of 180 miles an hour."

The women of Lapland average only 4 feet 9 inches in height.

It Testifies for Itself.—Dr. Thomas' Electric Oil needs no testimonial of its power other than itself. Whoever tries it for coughs or colds, for cuts or contusions, for sprains or burns, for pains in the limbs or back, will know that the medicine proves itself and needs no guarantee. This shows why this Oil is in general use.

"What sort of a woman is Mrs. Guff?" asked Mrs. Muff. "Well," replied Mrs. Duff. "She's one of those women who could wear a \$10,000 necklace and make it look like it came from the 10-cent store."—Cincinnati Enquirer.

Minard's Liniment For Burns, Etc.

The Cattle Embargo

Western Ranchers Are Opposed to Attitude of Ontario Legislator.

Western Livestock Associations do not take kindly to the attitude of Wm. Smith, member for North Ontario, who proposes introducing a resolution setting forth that it would not be in the best interests of Canada for Great Britain to lift the embargo against Canadian stock cattle. What applies to the Ontario farmer, they argue, certainly does not apply to the larger ranchers of the west.

WHAT TO DO FOR STOMACH TROUBLE

Good Advice From One Who Had Suffered Much.

Nine-tenths of all forms of indigestion or so-called stomach trouble are not due to the condition of the stomach at all, but are caused by other influences. The great contributing cause of indigestion is thin blood. Good blood and plenty of it is required by the stomach to take up the food. If the blood is thin the stomach functions sluggish, food lies undigested, gas forms and causes pains in various parts of the body. Instead of getting nourishment from the blood the system gets poison.

Relief from this condition can be obtained by the tonic treatment which Mr. D. Shaw, Mr. Stewart, P.E.I., tried and now warmly recommends to others. Mr. Shaw says: "I suffered from indigestion for over four years and have tried many of the well-known remedies for such troubles, but never obtained more than temporary relief. The trouble was aggravated by constipation setting in owing to the stomach failing to do its work, and bowels only gave relief to the bowels and left the stomach in worse condition. The result was my blood was growing more and more anemic. I did not sleep well at night and was growing despondent. I was in this wretched condition when a friend advised me to try Dr. Williams' Pink Pills. I got three boxes and by the time they were finished there was some change for the better. They greatly encouraged me and I continued taking the pills for some three months, by which time my stomach was all right again, my blood good, nerves strong and life was again worth living. My advice to all who suffer from stomach trouble is to give Dr. Williams' Pink Pills a fair trial."

Dr. Williams' Pink Pills can be obtained through any medicine dealer, or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Fair-haired people require more oxygen and nourishment than do those with dark hair, and therefore are to be found more in the country.

Heart Disease Relieved in 30 Minutes. Dr. Agnew's Remedy for the Heart gives perfect relief in all cases of Organic or Sympathetic Heart Disease in 30 minutes, and speedily effects a cure. It is a perfect remedy for Palpitation, Shortness of Breath, Smothering Spells, Pain in Left Side, and all symptoms of a diseased Heart. One dose cures.

Quite Relieved. Lady.—"I'm worried about my complexion doctor. Look at my face." Doctor.—"You'll have to die." Lady.—"I never thought of that. What color would suit me best?"

Minard's Liniment For Dandruff.

Would Ran Publication

Veterans Oppose Plan to Publish Memoirs of the Ex-Kaiser.

As a result of rumors published in a British paper to the effect that a British firm was planning to publish the ex-Kaiser's memoirs, the Ottawa branch of the G.W.V.A. has strongly protested against such a publication. In a resolution passed, it was suggested that a petition be forwarded to His Majesty King George, urging him to use his great influence in preventing such publication. The resolution also urged an appeal to the government to make it illegal for any person in Canada to be found in possession of a copy of such memoirs, or of any newspaper or magazine, whether British, American or Canadian, containing such memoirs.

Your Asthma, Too. The efficacy of Dr. J. D. Kellogg's Asthma Remedy is not something that is merely to be hoped for; it is to be expected. It seldom fails to bring relief, and in your own individual case it will do the same. So universal has been the success of this remedy that every one afflicted with this disease owes it to himself to try it.

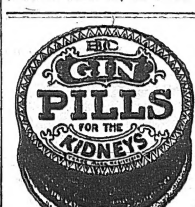

Dried Strawberry. Soon we shall have the strawberry as a dried fruit. A method of preserving it in this shape has been satisfactorily worked out, the product having the appearance of a small reddish fig, with the consistency of a raisin. The dried strawberry, it is said, retains the original flavor to a large extent.

Prunes are served to the inmates of Sing Sing prison on an average of twice a week, and 10,000 are used for one meal.

Minard's Liniment for sale everywhere.

The Reason.

He.—I wonder why three-fourths of the typists in business offices are women. She.—I think it is because men like to feel that there is at least one class of women whom they can dictate to.

How's This? We offer \$100.00 for any case of catarrh that cannot be relieved by HALL'S CATARRH MEDICINE. HALL'S CATARRH MEDICINE is taken internally and acts through the blood on the mucous surfaces of the system. Sold by druggists for over forty years. Price 75c. Testimonials free. J. J. Cheney & Co., Toledo, Ohio.

The finest oil for watches and delicate machinery is obtained from the jaw of the porpoise, and costs from \$50 to \$100 a gallon.

No matter how deep-rooted the corn may be, it must yield to Holloway's Corn Remover if used as directed.

War and the Newspapers No Truth in Idea That Wars Are Good for Newspapers. Every journalist knows that there is no truth in the popular idea that wars are good for newspapers. They are more frequently disastrous. As a consequence of the European war newspaper expenses grew beyond all precedent, and revenues have not increased in the same proportion. The newspaper today is the cheapest article that any man can buy. The amount paid for it frequently does not cover the first cost of the white paper upon which it is printed. That is not a healthy condition of affairs. It tends to limit the number of newspapers and consequently the expression of different shades of opinion that count for something in public affairs. It must lead to the concentration in fewer hands of the most powerful force in State organization.—Westminster Gazette.

THIS WOMAN'S RECOVERY Shows Remarkable Restorative Power of Lydia E. Pinkham's Vegetable Compound.

Chester, Ont.—"Before using Lydia E. Pinkham's Vegetable Compound I was a total wreck. I had terrible pains in my sides and was not regular. Finally I got so weak I could not go up stairs without stopping to rest half way up the steps. I tried two doctors but they did me no good. I saw your medicine advertised in the newspapers and thought I would give it a trial. I took four bottles of the Vegetable Compound and was restored to health. I am married, am the mother of two children, and do all my housework, milk eight cows, and do a hired man's work and enjoy the best of health. I also found Vegetable Compound a great help for my weak back before my babies were born. I recommend it to all my friends who are in need of medicine, and you may print this letter if you wish."—Mrs. HENRY JAMES, R. R. No. 4, Chester, Ontario.

It hardly seems possible that there is a woman in this country who will continue to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial after all the evidence that is continually being published, proving beyond contradiction that this great old medicine has relieved more suffering among women than any other medicine in the world.

"Save the surface and you save all"—Paint & Varnish
NEU-TONE
The Flat Oil Paint For Interior Decoration
For the walls and ceiling of any room in your home, make delicate and harmonious effects can be secured by the use of NEU-TONE. It is cheaper and more sanitary than wall paper and will last much longer because it can be washed without injury. It positively will not rub off.
NEU-TONE is made in light, shade, and by the use of various tints, new pleasing combinations may be secured.
MARTIN-SENOUR PAINTS AND VARNISHES
NEU-TONE is easy to apply. It covers well and leaves no brush marks. It is durable, does not crack, and will not stain or run.
Any surface may be successfully treated with NEU-TONE—lath, wood, brick or stone.
There is a good MARTIN-SENOUR Paint for every style and for every purpose. Consult our recent Color Chart, or send for a booklet "Paint and Varnish" mailed free on request.

Village Council To Spend \$2,000 on Sidewalks and Streets

Grant \$100 Towards Rest Room

This year the Chinook Village Council are intending to make extensive improvements in the Village. At their last meeting held on Monday evening, March 7, it was decided to spend \$2,000 this year on sidewalks and streets.

A deputation from the Chinook Branch of the Women's Institute waited on the Council asking for financial assistance in the purchasing of a Rest Room. After the delegates had outlined their proposition, the Council agreed to grant of \$100 to the Institute for the purchasing of the old Bank building to be used as a Rest Room.

The Reeve appointed a committee to revise the Village By-law with a view to having same published.

It was decided to attend to the Nuisance Grounds as soon as the weather permits.

The following appointments were made for 1921:

Poundkeeper M. L. Chapman
Health Inspector Dr. Rosenkrans
Auditor M. J. Hewitt

The estimates for 1921 are as follows:

Sidewalks and Streets	\$2,000
Lighting	300
Wells and Incidentals	430
Salaries	270
Health Department	200

Preparations Are Underway For Chinook Fair

Preparations are already underway for Chinook Fair which will be held on August 4-5, and every effort is being put forth this year to make the fair bigger and better than ever. The directors have revised the prize list and are arranging for special attractions, etc., and if the season is at all favorable, there is no reason that the Chinook fair will not be the best on the Goose Lake Line.

A. A. Lewis was a visitor in Calgary this week.

Chas. S. Mills, auctioneer, will sell by auction on Tuesday, April 5, the farm stock, etc., belonging to Mr. M. Johnson, Sec. 10-27-7. See posters for full particulars.

"Stepping Out" featuring Enid Bennett, and a De Haven comedy entitled "Feasting Soil" will be screened at the Chinook Theatre on Friday, March 18.

Posters are out announcing the sale of farm stock and implements, etc., on Friday, March 18, of Jas. H. Winch, nine miles south west of Chinook.

Mr. Thomas Haggerty, of Big Spring, is visiting at the home of Mr. and Mrs. Howton.

What do you know about Canada? It is surprising how little the average Canadian does know about Canada with the exception of the district in which he lives. Each day The Calgary Daily Herald on its editorial page prints a series of questions and answers giving information purely Canadian about the country in which you live.

The Calgary Daily Herald is your paper. Printed in Calgary. The City of The Footlights, a Western paper for Western readers. If you are not a regular subscriber order to-day from:

Canadian Women The New Electorate

THE women of Canada to take full advantage of their new prerogative, to take their proper place in the management of Canadian affairs, must keep informed on questions of the day, must have the necessary knowledge of current events to enable them to form definite opinions on public questions.

WOMEN MUST READ THE DAILY NEWSPAPER

THE Calgary Herald's daily woman's page and special Saturday women's features have a special interest for women in the home.

THE Calgary Herald is first, last and all the time a great family newspaper—it serves women in the home, in public life, in business, in the professions and in industry.

Special Palm Sunday Service

Next Sunday is Palm Sunday. There will be an appropriate sermon by the Pastor, and special music by the choir.

What each person can do to make the church an institution worth while in the community, is something that few people think seriously about. Each person thinks that some one else will do what is to be done. The old question is a pertinent one, What kind of a church would this church be, if every member were just like me? You have a part to play if the church succeeds as it should.

Do your bit and work for Christ and the Kingdom.

The Industrial and Resources department of the Canadian National Railways has issued a newly compiled list of business opportunities at points on C.N.R. and G.T.P. lines in Western Canada, covering the country from Lake Superior to the Pacific coast. The list contains 7,755 openings, embracing practically all commercial, industrial, mechanical and professional callings usually found in urban communities. Since the first list was published two years ago over 800 persons have found satisfactory locations by means of this convenient medium. Copies of the list may be obtained on application to the general agent of the department at Edmonton or Winnipeg.

The Ladies Aid of the Methodist Church are arranging to hold a sale of Easter flowers and plants, also home-made candy in the Acadia Hotel on Saturday, March 25, from 2:30 p.m. to 6 p.m. Afternoon tea will also be served. Donations from ladies living in the country will be thankfully received.
